

WARRANTY COVERAGE GUIDE

Under the New Vehicle Limited Warranty, most components are covered for 36 months or 36,000 miles, whichever occurs first, for 1990-1998 model year vehicles. Coverage for the 1999-2000 year models covers most components for 60 months or 60,000 miles under the New Vehicle Limited Warranty.

However, coverage for certain components may vary under the Hyundai warranties or under one of the scheduled maintenance programs. This publication provides information on these variations and about warranty coverage with normal and unique conditions.

In certain unique circumstances, Hyundai may decide, as a matter of goodwill, to pay for service on an item not normally covered by warranty. Also, there may be times when Hyundai will inform all affected Hyundai owners of a special policy to pay for all or part of the cost of certain repairs beyond the terms of the Hyundai warranties.

Check with your DPSM to determine whether a special policy applies. For specific coverage information, refer to the Hyundai Warranty Policy and Procedures Manual.

Program for 2000

NOTE:**P**

Indicates that the item/component is covered under the New Vehicle Limited Powertrain Warranty. Refer to Section 4 of the Warranty Policy and Procedures Manual.

Original Owner is defined as the first retail purchaser of the vehicle, and their immediate family members (i.e. wife, husband, son, daughter, stepson, stepdaughter), who took delivery of the vehicle on its date of first use. If the vehicle was first placed in service as a lease vehicle, and the lessee, or an immediate family member of the lessee, purchases the vehicle at the end of the lease, the 10 year/100,000 mile Powertrain Limited Warranty remains in effect. This Warranty is not transferable to any subsequent owner. Subsequent owners have powertrain components covered under the 60 month/60,000 mile Hyundai New Vehicle Limited Warranty. The 10 year/100,000 mile Powertrain Limited Warranty also excludes coverage for vehicles placed in commercial use (i.e. taxi, route delivery, livery service, rental, etc.).

E

Indicates that additional Emissions Warranty may apply. Refer to Section 4 of the Warranty Policy and Procedures Manual.

Depending on the model year, the Federal coverage is 2 years/24,000 miles, 5 years/50,000 miles or 8 years/80,000 miles. California coverage is either 3 years/50,000 miles, 5 years/60,000 miles, or 7 years/70,000 miles.

A

Indicates warranty adjustment may be performed once by the same Dealer within the vehicle's first 12 months/12,000 miles. Subsequent readjustments are the responsibility of the original servicing Dealer within the remaining warranty period.
